ADDRESSES OF VARIOUS UNIONS, INSTITUTES AND ORGANIZATIONS	62

Introduction

The title of the original source edited is: *The German Addressbuch* [address book]. *Section on Administration and Public Economy in Bavaria*. It is a voluminous compilation of the names and addresses of party and state agencies and functionaries in Bavaria, taken from a German handbook translated into English and supposed to help the Office of Military Government in Bavaria (OMGBAY) to fulfill its duties in the administration (and the denazification) of the state of Bavaria after the end of war. A copy of the list is in NARA's pertaining Record Group #260 (OMGUS), Box #155, folder #13/024-3/016 which contains a file of the Fiscal Section Detachment F1B3, Company B, 3rd ECA Regiment deployed in Nuremberg as part of the local Military Government's Finance Division. Though the copy is not dated, it can be assumed from the other papers within the file that the *Addressbuch* was in use from July 1945 to April 1946. The basis of our online list is a copy's copy in Nuremberg City Archives' holding F 6 OMGBAY #428.

Certain detail information in the list led us to the conclusion that the original *Deutsches Adressbuch* must have been from late 1941 or 1942: see *Chambers of Industry and Commerce (as of 1 October 1941)* and the title of a *Reichsamtsleiter* for Willy Liebel, the Nazi Lord Mayor of Nuremberg, who became a staff member of the architect Albert Speer in 1942.

Finally, why does *RIJO* publish such an extensive list of bureaucratic information? Because we consider it useful to everyone dealing with the history of the Nazi era in Bavaria down to the level of the grass roots. Usually such information including the comprehensive captions of the editor are difficult to obtain in English. For this reason we hope that our online edition will be of some use for other researchers.

OVERVIEW
